

XYT--100G_CFP ZR10

RoHS Compliant 100Gb/s CFP ZR10 80km Optical Transceiver

Product Features

- Supports 103.1Gbps to 112Gbps bit rates
- Duplex LC connector
- Hot pluggable
- 10x10Gb/s DWDM transmitter and pin receiver
- 10x10G MLD electrical interface
- Applicable for 80km SMF connection
- Low power consumption, < 18W
- Digital Diagnostic Monitor Interface
- MDIO Communication Interface
- Operating case temperature:
Commerical: 0 to 70 °C

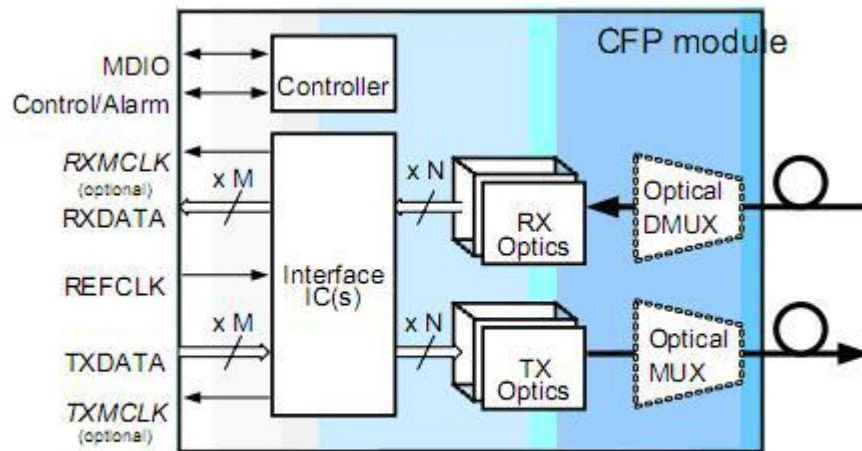

Applications

- 100GBASE-ZR10 100G Ethernet
- Other Optical link

Functional Description

Sharetop's 100G_CFP ZR10, 100G CFP ZR10 optical transceiver integrates the transmit and receive path onto one module. On the transmit side, 10 lanes of serial data streams are recovered, retimed, and passed on to 10 laser drivers, which control ten electric-absorption modulated lasers (EMLs) with C band wavelengths. The optical signals are then multiplexed into a single-mode fiber through an industry-standard LC connector. On the receive side, 10 lanes of optical data streams are optically demultiplexed by an integrated optical demultiplexer. Each data stream is recovered by a APD photodetector and transimpedance amplifier, retimed, and passed on to an output driver. This module features a hot-pluggable electrical interface, low power consumption, and MDIO management interface.
